

Braian Pla

JUNIOR FULL STACK DEVELOPER & SYSTEMS ENTHUSIAST

Location: Buenos Aires, Argentina

Email: martinfernandez2803@gmail.com

Phone: +54 9 336 460-4327

Age / Status: 23 years old • Open to Remote & Onsite

PROFESSIONAL PROFILE

Analytical, highly adaptable Junior Full Stack Developer completing a technical degree at **Universidad Tecnológica Nacional (UTN)**. Proven capability in engineering user-centered web applications that combine modern UX/UI standards with robust back-end logic. Enthusiastic about integrating **Autonomous AI Agents and LLM workflows** into contemporary software pipelines. Known for strong problem-solving acumen, an innate curiosity to master emerging technologies rapidly, and a calm, collaborative demeanor that fosters productive stakeholder and team dynamics.

HIGHLIGHTED PROJECTS & DEVELOPMENT

Full Stack Web Architecture & UX Systems

React • JavaScript • CSS3

Architected and deployed responsive, end-to-end web applications featuring intuitive UI/UX design patterns, state management, and optimized asset delivery for seamless cross-device performance.

AI Agents & Workflow Automation Lab

AI Prompting • Autonomous Agents • APIs

Implemented AI-assisted modules and agentic prompt chains designed to automate structured data extraction, optimize repetitive tasks, and enrich application business logic.

Data-Driven Relational Back-End

C# • PostgreSQL • SQLite

Designed structured database schemas and normalized relations. Wrote clean querying logic with comprehensive transaction integrity and business rule enforcement.

EDUCATION

Full Stack Programmer Degree (In Progress / Final Stage) Universidad Tecnológica Nacional (UTN)

Argentina • Expected Completion: 2024 / 2025

Rigorous training across computational thinking, full-stack systems architecture, enterprise software engineering, relational database normalization, and product delivery lifecycles.

TECHNICAL STACK

PROGRAMMING & FRONT-END

C# React JavaScript (ES6+) HTML5

CSS3 / Flexbox / Grid UI / UX Design

DATABASES & STORAGE

PostgreSQL SQL (Standard) SQLite

Relational Schema Design

AI & EMERGING TECH

AI Agents LLM Prompt Engineering

API Integration

METHODS & BUSINESS

- Agile & Scrum / Kanban:** Sprint cadence, task estimation & continuous flow.
- SDLC Frameworks:** Waterfall, Incremental, and Spiral delivery lifecycles.
- Business Organization:** Corporate structure, workflows & project management.
- Analytical Toolkit:** Data analysis, probability & inferential statistics.
- Legal & Compliance:** IT governance and software regulatory principles.

LANGUAGES

Spanish Native

English Fluent (Oral & Written)

CORE STRENGTHS

- High learning agility & fast skill adoption
- Critical thinking & analytical resolution
- Calm, articulate, and receptive team player
- Strong empathy with peers & leadership
